Re: Status of Small Mining Project, Color Country Rock, Quail #45 Project, Washington County, Utah

Dear Mr. Hafen:

On February 4, 2003, the BLM and I inspected your Quail #45 Project (inspection memo with photos enclosed). It is our understanding that the property was quit claimed to U.S. Gypsum in 2002. However, because the mining disturbance was created by Color Country Rock, you will be responsible for reclamation of the project unless U.S. Gypsum wishes to assume the mine permit and reclamation responsibility. We have enclosed a small mining transfer form (MR-SMO), if you wish to transfer the Quail #45 permit to U.S. Gypsum.

Because there is disturbance at the site, the permit fees remain due and payable. We have enclosed another billing notice for this purpose. If U.S. Gypsum wishes to assume the small mining permit and pay the past due permit fee, the fee payment can be submitted along with the transfer form. Otherwise, Color Country Rock remains responsible for the permit fee until the disturbance is fully reclaimed and you have received written release from this Division. Please be advised that all unpaid permit fees are being sent to the Utah Office of Debt Collections. If the past due permit fee is received within the next 10 days, we will withdraw this from the collections listing.

Please contact me at (801) 538-5382 within the next 10 days advising me of your intent. Thank you for your prompt reply to this letter.

Sincerely,

Doug Jensen
Senior Reclamation Engineer
